

Business and Meeting

for serene gatherings

The Callistos Hotel is also the “most beautiful” setting, because it is perfect for organising small meetings and events, thanks to its modular meeting room, equipped with seating for approximately 30 people, with all the privileges of a venue suited to business gatherings.

In addition, the Hotel bar is available to guests for refreshing drinks during the summer season, as well as for a quick coffee service, making it another space well suited to working breakfasts and the most modern brunches.
